Robert J Chatfield

// Known for my passion and enthusiasm, I aim to enrich the world one project at a time. I am seeking a super
// engaging work environment where I can showcase and explore my talents, and work with equally driven developers.

career

// **iOS Developer** AppsFactory, Griffith Health
2014 // Creating an iOS application for Chronic Fatigue Syndrome research.

// **PASS Leader** Griffith University
2014 // Tutor of Peer Assisted Study Sessions.

// **Localisation QA** Apple Inc, Cupertino
2012 // Worked for 6 months with Apple engineering teams to improve the localisation of Siri and Maps for non-US English locales.
Gained first-hand experience with Apple's internal systems including code review, formal release processes, QA, and continuous integration.
